Cross Sectional Shape:

Round

Wall Thickness:

0.025 inches

Inside Diameter:

0.875 inches first end

Connection Style:

Round first end

Connection Type:

Soft first end

End Inside Diameter:

0.875 inches first end

Measuring Method And Length:

3.000 inches

Special Features:

Used on a10a aircraft

Material:

Plastic tetrafluoroethylene single ply

Style Designator:

Sleeve section

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A229a0
