Cross Sectional Shape:

Round

Inside Diameter:

1.062 inches

Outside Diameter:

1.540 inches

Layer Composition And Location:

1st layer rubber impregnated fabric err-100

Inside Surface Condition:

Smooth

Measuring Method And Length:

4.750 inches

Material:

Rubber synthetic tube

Media For Which Designed:

Water single response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A541z0
