Cross Sectional Shape:

Round

Inside Diameter:

0.250 inches

Outside Diameter:

0.500 inches

Layer Composition And Location:

Outer layer braided fiber

Inside Surface Condition:

Smooth

Measuring Method And Length:

3.750 inches working

Material:

Rubber natural tube

Media For Which Designed:

Fuel/oil, hydrocarbon single response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A541z0
