Cross Sectional Shape:

Round

Inside Diameter:

0.125 inches

Outside Diameter:

0.375 inches

Exterior Color:

White

Layer Composition And Location:

Outer layer molded rubber

Inside Surface Condition:

Smooth

Measuring Method And Length:

20.000 inches working

Material:

Rubber synthetic tube

Media For Which Designed:

Air single response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A541z0
