**Cross Sectional Shape:**

Round

**Inside Diameter:**

0.500 inches

**Outside Diameter:**

0.671 inches

**Inner Conveying Tube Style:**

Interlocked packed

**Layer Composition And Location:**

Outer layer spiral interlocked steel

**Hydrostatic Test Pressure:**

750.0 pounds per square inch single response

**Measuring Method And Length:**

600.000 inches

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A541z0
