Cross Sectional Shape:

Flat

Wall Thickness:

0.030 inches

Tempurature Rating:

121.0 degrees celsius single response

Exterior Color:

Black

Inside Width:

0.562 inches

Inside Surface Condition:

Smooth

Measuring Method And Length:

300.000 inches

Material:

Rubber tube

Media For Which Designed:

Hydraulic fluid single response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A54200
