Cross Sectional Shape:

Round

Burst Test Pressure:

1250.0 pounds per square inch

Maximum Operating Pressure:

200.0 pounds per square inch

Outer Covering Environmental Protection:

Abrasion resistant

Inside Surface Condition:

Smooth

Measuring Method And Length:

192.000 inches working

Special Features:

Equipped with coupler part number avvec4-4-56 on one end and bushing part number ms24398-8-4, nipple part number aven8-8-56, cap part number amce-8 on other end

Media For Which Designed:

Fuel/oil, hydrocarbon single response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A542a0
