Cross Sectional Shape:

Round

Inside Diameter:

0.625 inches

Outside Diameter:

0.875 inches

Layer Composition And Location:

Outer layer molded rubber, synthetic

Inside Surface Condition:

Smooth

Measuring Method And Length:

72.000 inches

Material:

Rubber tube

Media For Which Designed:

Water single response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A541z0
