Cross Sectional Shape:

Round

Minimum Inside Bending Radius:

8.000 inches

Inner Conveying Tube Style:

Helical open-pitch corrugated

End Application:

Tank combat, m60; pccn c340aa

Burst Test Pressure:

6600.0 pounds per square inch

Maximum Operating Pressure:

1650.0 pounds per square inch

Measuring Method And Length:

13.120 inches excluding end fittings

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A542a0
