Cross Sectional Shape:

Round

Inside Diameter:

1.031 inches

Outside Diameter:

1.501 inches

Layer Composition And Location:

Outer layer molded rubber, synthetic

Inside Surface Condition:

Smooth

Measuring Method And Length:

3.000 inches

Material:

Rubber chloroprene class cr tube

Media For Which Designed:

Fuel/oil, hydrocarbon single response and water single response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A541z0
