**Cross Sectional Shape:**

Round

**Inside Diameter:**

2.000 inches

**Outside Diameter:**

2.788 inches

**Layer Composition And Location:**

Outer layer molded rubber, synthetic

**Inside Surface Condition:**

Smooth

**Material:**

Rubber synthetic tube

**Media For Which Designed:**

Air single response and fuel/oil, hydrocarbon single response and water single response

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A541z0
