Cross Sectional Shape:

Round

Inside Diameter:

2.500 inches

Outside Diameter:

3.000 inches

Exterior Color:

Black

Layer Composition And Location:

Outer layer braided corrosion resistant steel wire

Inside Surface Condition:

Smooth

Measuring Method And Length:

216.000 inches

Material:

Rubber synthetic tube

Media For Which Designed:

Water, salt single response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A541z0
