**Cross Sectional Shape:**

Round

**Exterior Color:**

Natural

**Angle Between Rigid Elbow Fittings In Deg:**

90.0

**Connection Type:**

Threaded internal tube 1st end

**Layer Composition And Location:**

1st layer molded polytetrafluoroethylene and outer layer braided corrosion resistant steel wire

**Inside Surface Condition:**

Smooth

**Measuring Method And Length:**

16.620 inches working and 16.870 inches working

**Media For Which Designed:**

Fuel/oil, hydrocarbon single response

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

Yes - demil/mli

**Fig:**

A542a0
