Cross Sectional Shape:

Round

Inside Diameter:

0.500 inches

Outside Diameter:

1.062 inches

Connection Type:

Universal quick disconnect 1st end

Layer Composition And Location:

1st layer braided wire and outer layer molded rubber, synthetic

Inside Surface Condition:

Smooth

Measuring Method And Length:

15.0 feet

Media For Which Designed:

Fuel/oil, hydrocarbon single response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A542a0
