Cross Sectional Shape:

Round

Inside Diameter:

4.8 millimeters

Outside Diameter:

1.25 millimeters

Exterior Color:

Natural

End Connection Design:

Straight 1st end

Connection Type:

Unthreaded external tube all ends

Features Provided:

Reusable end fittings and identical ends

Inside Surface Condition:

Smooth

Measuring Method And Length:

87.0 millimeters

Outside Diameter Tube Accommodated:

4.8 millimeters 1st end

Special Features:

Sleeves and inserts 2 ea to secure tubing ends; first end fitting/material: sleeve, plastic; first end surface treatment: melamine, mil-p-15037, type gme; first end fitting std: 980009020-51404; flexible; designed for use w/ water

Material:

Rubber silicone class q body

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A541y0
