Cross Sectional Shape:

Round

Inside Diameter:

0.250 inches

Outside Diameter:

0.500 inches

Exterior Color:

Black

End Application:

Truck vehicle system, 1 1/4 ton (hmmwv)

Features Provided:

Perforated outer cover

Layer Composition And Location:

Outer layer molded rubber, ethylene propylene err-100

Outer Covering Environmental Protection:

Oil resistant

Inside Surface Condition:

Smooth

Measuring Method And Length:

25.0 feet

Material:

Plastic polyethylene tube

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A541z0
