Cross Sectional Shape:

Round

Inside Diameter:

2.375 inches

Outside Diameter:

3.219 inches

Exterior Color:

Black

Layer Composition And Location:

1st layer rubber impregnated fabric err-100

Outer Covering Environmental Protection:

Heat resistant and oil resistant and salt water resistant

Inside Surface Condition:

Smooth

Material:

Rubber synthetic tube

Media For Which Designed:

Water single response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A541z0
