Cross Sectional Shape:

Round

Inside Diameter:

2.562 inches

Outside Diameter:

2.812 inches

Layer Composition And Location:

Outer layer rubber impregnated polyamide fabric

Inside Surface Condition:

Smooth

Measuring Method And Length:

2.812 inches

Material:

Rubber tube

Media For Which Designed:

Air single response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A541z0
