Cross Sectional Shape:

Round

Inside Diameter:

0.188 inches

Outside Diameter:

0.516 inches

Layer Composition And Location:

Outer layer braided corrosion resistant steel wire

Inside Surface Condition:

Smooth

Material:

Rubber synthetic tube

Media For Which Designed:

Hydraulic fluid single response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A541z0
