	onal Shape:
Round	
Inside Diame	eter:
0.190 inches	
Tempurature	Pating:
-40.0 degrees	s fahrenheit and 160.0 degrees fahrenheit single response
Outside Diar	neter:
0.500 inches	
Connection	Туре:
Threaded inte	ernal hose 1st end
Burst Test P	ressure:
500.0 pounds	s per square inch
Layer Comp	osition And Location:
1st layer brai	ded corrosion resistant steel wire and outer layer molded rubber, neoprene
Maximum O	perating Pressure:
125.0 pounds	s per square inch
Hydrostatic	Test Pressure:
250.0 pounds	s per square inch
Inside Surfa	ce Condition:
Smooth	
Measuring N	lethod And Length:
24.750 inches	s working and 25.250 inches working
Media For W	/hich Designed:
Ethylene glyc	col and hydraulic fluid, silicate-ester base single response
Shelf Life:	
N/a	
Unit Of Meas	sure:
Demilitarizat	ion:
No	
Fiig:	
A542a0
