Cross Sectional Shape:

Round

Temperature Rating:

-40.0 degrees fahrenheit single response and 200.0 degrees fahrenheit single response

Connection Type:

Threaded internal tube 1st end

Inside Surface Condition:

Smooth

Measuring Method And Length:

22.000 inches

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A542a0
