Cross Sectional Shape:

Round

Inside Diameter:

0.375 inches

Outside Diameter:

0.688 inches

End Connection Design:

Straight 1st end

Layer Composition And Location:

1st layer braided steel wire and outer layer plastic, tetrafluoroethylene

Inside Surface Condition:

Smooth

Measuring Method And Length:

32.000 inches

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A542a0
