Nonmetallic Hose Assembly - Page 1 of 1

View Online at https://aerobasegroup.com/nsn/4720-01-251-9898

Cross Sectional Shape:
Round
Inside Diameter:
12.7 millimeters
Tempurature Rating:
-40.0 degrees celsius single response and 120.0 degrees celsius single response
Outside Diameter:
22.5 millimeters
Minimum Inside Bending Radius:
100.0 millimeters
End Application:
Yale materials handling corporation, model gp or gc forklift
Burst Test Pressure:
875.0 kilograms per square centimeter
Maximum Operating Pressure:
175.0 kilograms per square centimeter
Inside Surface Condition:
Smooth
Measuring Method And Length:
660.0 millimeters
Media For Which Designed:
Fuel/oil, hydrocarbon single response
Shelf Life:
N/a
Unit Of Measure:
Demilitarization:
No
Fiig:
A542a0
