Cross Sectional Shape:

Round

Inside Diameter:

1.500 inches

Outside Diameter:

2.000 inches

Burst Test Pressure:

500.0 pounds per square inch single response

Measuring Method And Length:

50.0 feet working

Special Features:

Tubing wall reinforcement: nylon braid

Material:

Plastic polyvinyl chloride tube and plastic nylon tube

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A54200
