**Cross Sectional Shape:**

Round

**Outside Diameter:**

0.125 inches

**Exterior Color:**

Black

**Inside Surface Condition:**

Smooth

**Measuring Method And Length:**

8.0 feet

**Special Features:**

Male locking luer, fitting each end; for sampling co2 exhaled from patient before it goes into co2 monitor, model 5210

**Material:**

Plastic polyhexamethylene adipamide tube

**Material Specification:**

L-p-410 federal specification single material response tube

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fig:**

A541y0
