Wall Thickness:

Between 0.220 inches and 0.270 inches

Inside Diameter:

2.250 inches

End Application:

2320-01-230-0307

Bend Radius:

2.750 inches

Special Features:

Temperature minus 65 degrees f to 350 degrees f; min burst pressure 300 psi

Material:

Glass fiber or plastic silicone and plastic polypropylene

Style Designator:

Continuous curve

Working Length:

4.500 inches

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A542b0
