Cross Sectional Shape:

Round

Temperature Rating:

-40.0 degrees fahrenheit single response and 125.0 degrees fahrenheit single response

Exterior Color:

Clear

End Application:

C-17 acft, support eqpmt for oxygen systems maintenance

Connection Type:

Threaded external hose 1st end

Layer Composition And Location:

Outer layer braided polyester cord

Inside Surface Condition:

Smooth

Measuring Method And Length:

20.0 feet excluding end fittings

Special Features:

Used to route purged oxygen from oxygen masks to the outside of acft; 1st end mates w/oxy.Mask output hose, mates w/fitting ms22058-2; 2nd end is unprocessed

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A542a0
