Cross Sectional Shape:

Round

Inside Diameter:

0.061 inches

Outside Diameter:

0.125 inches

End Application:

Emerson electric co, ka band pressurization receiver/transmitter, model an/apq-175

Inside Surface Condition:

Smooth

Material:

Plastic polyethylene tube

Specification Data:

81349-mil-p-21922 government specification

Specification Or Standard:

I type and h class and 1 grade

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A54200
