**Cross Sectional Shape:** 

Round

**Inside Diameter:** 

0.061 inches

# Outside Diameter:

0.125 inches

## End Application:

Emerson electric co, ka band pressurization receiver/transmitter, model an/apq-175

## Inside Surface Condition:

Smooth

Material:

Plastic polyethylene tube

## **Specification Data:**

81349-mil-p-21922 government specification

### **Specification Or Standard:**

I type and h class and 1 grade

Shelf Life:

#### N/a

Unit Of Measure:

---

Demilitarization:

No

### Fiig:

A54200
