Cross Sectional Shape:

Round

Wall Thickness:

0.006 inches

Inside Diameter:

3.750 inches first end

Connection Type:

Plain first end

Maximum Operating Pressure:

15.0 pounds per square inch

Measuring Method And Length:

1.500 inches

Special Features:

Lac specification for matl is 23-933, class c, type 1 with temp of -65.0 to + 300.0

Material:

Rubber silicone class q 2nd ply

Style Designator:

Sleeve section

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A229a0
