Cross Sectional Shape:

Round

End Application:

3655-00-722-3901, generating and charging plant, oxygen-nitrogen, skid-mounted

Layer Composition And Location:

Outer layer braided steel wire

Measuring Method And Length:

26.000 inches

Special Features:

Assy has a protective cap; called a pigtail assembly

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A542a0
