Cross Sectional Shape:

Round

Inside Diameter:

2.8 millimeters

Outside Diameter:

6.3 millimeters

End Application:

2320-01-353-9098

Inside Surface Condition:

Smooth

Special Features:

Coiled; uncoiled length 6096 millimeters; inner conveying tube material: ethylene propylene rubber

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A541z0
