Cross Sectional Shape:

Round

End Application:

600gph reverse osmosis water purification unit

Connection Type:

Internal quick disconnect 1st end

Inside Surface Condition:

Smooth

Measuring Method And Length:

300.000 inches excluding end fittings

Special Features:

Single cotton jacket; quick disconnect, cam-locking type couplings; 1.5" gasket per a-a-59326

Media For Which Designed:

Water, drinking single response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A542a0
