Cross Sectional Shape:

Round

Inside Diameter:

1.750 inches

Outside Diameter:

2.120 inches

End Application:

Heat exchanger for use on marine 6bta sea water aftercooled engine models with rear mounted turbo's (low profile "wet" exhaust system)

Measuring Method And Length:

3.750 inches

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A541z0
