**Inside Diameter:**

19.1 millimeters

**End Application:**

Heat exchanger for use on marine 6bta sea water aftercooled engine models with rear mounted turbo's (low profile "wet" exhaust system)

**Style Designator:**

Two bend

**Working Length:**

368.3 millimeters

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A542b0
