Cross Sectional Shape:

Round

Inside Diameter:

1.400 inches first end

Endlength:

1.250 inches both ends

Connection Style:

Round both ends

Connection Type:

Soft both ends

End Inside Diameter:

1.000 inches both ends

Measuring Method And Length:

23.000 inches

Material:

Fiberglass reinforcing cord

Style Designator:

Helically wound continuous wire supported

Specification Data:

81343-as1504 government standard

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A229a0
