Wall Thickness:

0.030 inches

Inside Diameter:

0.250 inches

End Application:

2320-01-383-2047

Bend Radius:

2.750 inches

Special Features:

Carbon steel, zinc coated medium hard temper wire reenforcement

Material:

Rubber synthetic

Material Specification:

Zz-h-428, type 3, grade b, class 3 federal standard single material response

Style Designator:

Continuous curve

Working Length:

0.500 inches

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A542b0
