End Application:

Used to connect gas cylinder to waveguide in ad/gpn-20

Maximum Operating Pressure:

3000.0 pounds per square inch

Measuring Method And Length:

36.000 inches

Special Features:

High pressure hose; 1/4" brass fittings

Supplementary Features:

Stainless steel flexible pigtail

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:
