Cross Sectional Shape:

Round

Temperature Rating:

-55.0 degrees fahrenheit single response and 75.0 degrees fahrenheit single response

Outside Diameter:

0.340 inches

End Application:

Acft, type mc130e

Measuring Method And Length:

51.875 inches

Special Features:

Media for which designed: dry air, nitrogen, sulphur hexafluoride; assemblytolerance is plus or minus 1/2 inch

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A542a0
