Wall Thickness:

Between 4.3 millimeters and 5.6 millimeters

Inside Diameter:

37.4 millimeters

End Application:

Strategic sealift conversion ships class

Bend Radius:

60.0 millimeters

Features Provided:

Enlarged ends

Special Features:

Lower coolant hose

Material:

Rubber synthetic

Style Designator:

Two bend

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A542b0
