**Wall Thickness:**

Between 4.3 millimeters and 5.6 millimeters

**Inside Diameter:**

40.7 millimeters

**End Application:**

Strategic sealift conversion ships class

**Bend Radius:**

36.5 millimeters

**Outer Radius:**

60.0 millimeters

**Special Features:**

Upper coolant hose

**Material:**

Rubber synthetic

**Style Designator:**

Two bend

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fig:**

A542b0
