Wall Thickness:

Between 0.170 inches and 0.220 inches

Inside Diameter:

2.250 inches

End Application:

3930-01-384-5310

Bend Radius:

2.250 inches

Special Features:

Reduced i.D by bonding a synthetic rubber bushing inside hose

Material:

Rubber synthetic

Style Designator:

Continuous curve

Working Length:

3.500 inches

Specification Data:

81343-j20-r4 professional/industrial association specification

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A542b0
