Cross Sectional Shape:

Round

Inside Diameter:

1.250 inches

Outside Diameter:

1.594 inches

Burst Test Pressure:

240.0 pounds per square inch single response

Layer Composition And Location:

1st layer helix wire coil err-100

Outer Covering Environmental Protection:

Ozone resistant and heat resistant and abrasion resistant and salt water resistant

Inside Surface Condition:

Smooth

Measuring Method And Length:

50.0 feet

Material:

Rubber synthetic tube

Media For Which Designed:

Water, salt single response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A541z0
