Cross Sectional Shape:

Round

Inside Diameter:

6.000 inches first end

Endlength:

1.250 inches both ends

Connection Style:

Round both ends

Connection Type:

Soft both ends

End Inside Diameter:

6.000 inches both ends

Measuring Method And Length:

30.750 inches

Material:

Steel reinforcing wire

Style Designator:

Fully convoluted w/ wire rings between convolutions

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A229a0
