Cross Sectional Shape:

Round

Inside Diameter:

1.6 millimeters

Tempurature Rating:

-35.0 degrees celsius single response and 105.0 degrees celsius single response

Outside Diameter:

2.8 millimeters

End Application:

3895-01-396-2822

Inside Surface Condition:

Smooth

Measuring Method And Length:

144.000 inches

Material:

Plastic polyvinyl chloride tube

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A54200
