Cross Sectional Shape:

Round

Inside Diameter:

2.000 inches

Outside Diameter:

2.406 inches

Burst Test Pressure:

160.0 pounds per square inch single response

Layer Composition And Location:

1st layer spirally laid cord strands err-100

Outer Covering Environmental Protection:

Abrasion resistant and acid resistant and ozone resistant and heat resistant and salt water resistant

Inside Surface Condition:

Smooth

Material:

Rubber synthetic tube

Media For Which Designed:

Water single response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A541z0
