Cross Sectional Shape:

Round

Inside Diameter:

508.0 millimeters

Outside Diameter:

520.0 millimeters

End Application:

Nsn 3930-01-269-4938 caterpillar diesel engine, truck material handling

Measuring Method And Length:

305.0 millimeters excluding end fittings

Special Features:

Made from dayco rubber products 42-9452 or buckeye rubber products bx2315

Material:

Rubber tube

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A541z0
