**Cross Sectional Shape:**

Round

**Temperature Rating:**

-65.0 degrees fahrenheit single response and 250.0 degrees fahrenheit single response

**End Application:**

Usn's stalwart class tagos

**Burst Test Pressure:**

26000.0 pounds per square inch

**Maximum Operating Pressure:**

6500.0 pounds per square inch

**Measuring Method And Length:**

48.000 inches

**Special Features:**

Od hose 5mm; outer shell polyimide; stainless steel fittings, thread series 1215

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A542a0
