Cross Sectional Shape:

Round

End Application:

Aircraft air lifter c-17

Connection Style:

Round both ends

Hose Weight:

0.130 ounces per linear foot

Maximum Operating Pressure:

450.0 pounds per square inch

Special Features:

Threads 0.5000-20 unjf-3b; inner liner, polytetrafluoroethylene; inner tube, silicon; reinforcement, nomex braid (green); burst press. 1800 psi min; hose h579-06

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A229a0
