Cross Sectional Shape:

Round

End Application:

Aircraft f-16

Connection Type:

Err-030 both ends

Measuring Method And Length:

47.000 inches

Special Features:

Coupling ends p/n an818-4d; hose material: silicon layer, cres wire helix, fabric reinforced, and fabric covered; preservation and packaging shall protect against corrosion, contamination, physical damage and harmful effects; no communication cable; high pressure

Fsc Application Data:

Aircraft oxygen system

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A229a0
